To All Interchange Recycling Members:

Re: Yukon Registration for Producers (Stewards) is Open

Yukon EPR Regulation requires the Producers (Stewards) of lubricating oil, antifreeze, oil filters diesel exhaust fluid and automotive containers to develop an EPR plan and implement a program by July 1, 2025. As per our previous notices, Interchange Recycling is currently engaging with stakeholders and consulting on a Plan that will be submitted to the Yukon Government for approval in September 2024.

All organizations doing business in Yukon are asked to Register with Interchange Recycling Yukon by completing the [Participation Agreement](#) and submitting it to accounting@interchangerecycling.com.

For more information about the Registration process or the EPR Plan development, please visit our Yukon page on our [website](#).

Interchange Recycling will hold an information session for Yukon Producers (Stewards) on Wednesday, September 11, 2024 at 11 am PST and registration information will be shared with Producers closer to the date.

If you have any questions, please contact David Lawes, CEO Interchange Recycling at dlawes@interchangerecycling.com.
