BC Applicable Products List – Effective January 1st, 2026

Interchange Recycling's BC Extended Producer Responsibility Plan covers these regulated categories of materials, as further described in Regulation Schedule 2.

All Oil Fluid and Oil Containers (50 litres or less)

*Fluid is EHC applicable since it is **not** consumed in use and is available for collection and recycling.*

- Circulating oil
- Compressor oil
- Crankcase oil (petroleum or synthetic)
- Electrical insulating oil
- Engine oil
- Gear oil
- Hydraulic fluid
- Marine engine oil for vessels operating domestically
- Mineral heat transfer fluid
- Natural gas compressor oil not consumed in use
- Paper machine oil
- Petroleum crankcase oil
- Polyolester fluids
- Power steering fluid
- Refrigeration system oil
- Re-refined oil
- Synthetic crankcase oil
- Transmission fluid
- Turbine oil
- Vegetable oil for lubrication
- Vacuum pump oil

Oil Containers Only (50 litres or less)

Containers must be empty. Fluid is not EHC applicable since it is consumed in use and not available for collection and recycling.

- 2-cycle engine oil
- Agricultural spray oil
- Anti-seize lubricant
- Chain oil
- Conveyor lube
- Dedusting oil
- Drawing, stamping and Shaping oil
- Dripless lube
- Emulsified oil
- Food grade white mineral oil
- Form release oil
- Gasoline / 2-cycle engine oil mixes
- Machine tool and slide way lubricant
- Marine cylinder oil
- Metal working oil
- Natural gas compressor oil consumed in use
- Pneumatic system oil
- Process oil
- Quenching oil
- Rock drill oil
- Rustproof oil
- Saw guide oil
- Silicone lubricant
- Textile oil
- Wiring pulling lubricant (petroleum or vegetable based)
- 3-in-1 household oil aerosol
- propelled lubricant
- Brake fluid
- Cleaning/flushing fluids for motors/equipment
- Diesel fuel treatment
- Hydraulic jack oil
- Oil additive
- Oil treatment
- Penetrating oil
- Sewing machine oil
- Phosphate ester hydraulic fluid
- Polyglycol synthetic compressor oil
- Propylene glycol heat transfer fluid
- Silicone heat transfer fluid
- Water glycol hydraulic fluid
- Synthetic aromatic hydrocarbon heat transfer fluid
- Glycol-based heat transfer fluid
- Grease
- Gun oil
- Base oil, including re-refined base oil
- Ethylene glycol heat transfer fluid
- Winter start fluid

Updated on September 23, 2025

Antifreeze Fluid and Antifreeze Containers (50L or less)

Containers must be empty.

- Antifreeze including ethylene glycol or propylene glycol used as an engine coolant

Antifreeze Containers Only (50 litres or less)

- Antifreeze containers with a capacity 50 litres or less

Oil Filters

- Spin-on or element style filter that is used in hydraulic, transmission or internal combustion engine applications
- coolant filter
- diesel fuel filter used at retail & commercial pump islands
- household furnace oil filter
- plastic / paper element style filter
- storage tank diesel fuel filter
- sump type automatic transmission filter
- locomotive filter
- oil / air separator filter

DEF containers (50L or less)

Containers must be empty. Fluid is not EHC applicable since it is consumed in use and not available for collection and recycling.

- Diesel exhaust fluid containers with a capacity of 50 litres or less

Other Automotive Containers

Containers must be empty.

- Automotive Adhesives
- Automotive Aerosols
- Brake fluid
- Conditioners
- Degreasers
- Fuel system cleaners
- Lubricants
- Automotive Sealers
- Solvents
- Stabilizers
- Windshield Washer Fluid

Updated on September 1, 2026

EHC is NOT Applicable on the following Products

Oil Products and/or Oil Containers

- Cooking oil
- Export oil sales
- Heating furnace oil
- Hydraulic oil dye
- Kerosene
- Marine engine oil for vessels operating internationally
- Undercoating
- Urethane coating
- Wax

Filters

- Air filters
- Crankcase ventilation filter
- Filters for gasoline
- Household furnace air filter
- Sock-type filter

Antifreeze Fluid & Containers

- Aircraft de-icing
- Antifreeze used for plumbing
- Gasoline or diesel fuel lines
- Lock de-icing
